## TECHICAL SKILLS

---

**Language:** Core Java, Python and Object-Oriented Programming.

**Front-End:** HTML, CSS, Bootstrap, JavaScript, React.js.

**Library and Tools:** Node.js, GitHub and VS Code

**Academics:** OOPs, Operating System, Databases and Computer Networks

**Soft Skills:** Teamwork, Problem Solving, Time Management and Adaptability

## PROJECT

---

**E-Commerce Website** | *HTML, CSS and JavaScript* | [GitHub](#) | [Live](#)

- Designed a responsive layout to accommodate various screen sizes.
- Created detailed product pages with HTML and CSS, showcasing product images, descriptions, specifications and reviews.
- Developed shopping cart functionality, enabling users to add, remove and update items dynamically using JavaScript.
- Collaborated with designers and back-end developers to integrate front-end components seamlessly.

**Handicraft Website** | *MERN Stack* | [GitHub](#) | [Live](#)

- A simple online shopping showcasing the use of React.JS, CSS and JavaScript.
- Handicraft is about processing materials by hand with hand tools. The results can be helpful things or decorative things. I undertook a dynamic project to develop a cutting-edge online shopping site.
- Used SCSS for designing purpose.

## CODING PLATFROMS

---

- **LeetCode:** [leetcode.com/virendra\\_verma\\_99/](https://leetcode.com/virendra_verma_99/)
- **GFG:** [auth.geeksforgeeks.org/user/vkverma99](https://auth.geeksforgeeks.org/user/vkverma99)
